

# “Unaccounted for” Water Loss

Line Location / Leak Detection / Water Audits / Conservation / Dechlorination

**FOR: Water/Wastewater Operations & Certified Public Works Managers**

**DATE: Wednesday, August 4, 2010**

**PLACE: Hightstown, Mercer County**

---

## NO REGISTRATION FEE

Almost every water system has a problem locating lines and with water loss. There are many good reasons to search for missing water. By lowering your systems water loss, you can reduce wear on equipment. You can also lower electricity bills and other operating costs for treatment, pumping and storing water, and at the same time help to conserve our most valuable resource.

Instruction Provided By: Greg Picher
